

SYMBOL KEY

Greatest exceedance of regulatory PFAS value (USEPA MCL, 2024):

- Not Sampled
- Non-Detect
- Below MCL
- Above MCL
- Above 10x MCL
- Above 100x MCL
- Above 1000x MCL

Water Features:

- Stream
- Surface Water Bodies

Modeled Bedrock Groundwater Contour

Bedrock Groundwater Flow Direction

Potential Aqueous Film Forming Foam Release Area

Flow Field Boundary

Former Installation Boundary

Symbology note:

- Bedrock wells depicted as half circles to indicate depth.
- Shallow Bedrock Well
- Deep Bedrock Well

Label notes:

- White Border - Existing Monitoring Wells
- Yellow Border - Monitoring wells installed during the Remedial Investigation
- *Co-located wells: Higher sample result depicted

Notes:

- ng/L - nanograms per liter
- PFAS - per and polyfluoroalkyl substances
- USEPA MCL - United States Environmental Protection Agency Maximum Contaminant Level

Figure depicts most recent sampling result for each location.
*See Table 1-3 for more information about screening levels
