Re: Notice of Completed Application

The DMR has received a completed standard lease application for the following:

Applicant	Dirigo Marine Resources	
Culture Type	<input type="checkbox"/> Bottom culture (No gear)	<input checked="" type="checkbox"/> Suspended culture (Bottom and/or surface gear)
Species	<input checked="" type="checkbox"/> Shellfish	<input checked="" type="checkbox"/> Marine algae <input type="checkbox"/> Finfish <input type="checkbox"/> Other
Location, Waterbody, Town	Casco Bay, South Freeport	
Lease Size and Term	6 Acres	20 Years

The next step in the review process is a required site visit. DMR scientists will visit the proposed lease site and assess the area in consideration of applicable lease decision criteria. After the site review is complete, a site report will be published and posted to DMR's website. A public hearing will then be scheduled. The public hearing is an opportunity for members of the public to provide testimony and evidence about the proposal as it relates to the criteria DMR must legally consider in evaluating a standard lease. At this juncture, DMR is unable to estimate when a public hearing will be scheduled but notice of the proceeding will be provided in accordance with applicable law.

RIPARIAN LANDOWNERS: This notice is sent to shorefront owners whose property boundaries are within 1,000 feet of the proposed lease site. The law requires that this notice and any subsequent notices be mailed to riparian landowners at the address on the riparian list contained in the application. Please note that the address on that list is based on municipal tax records in accordance with law. To receive updates via email, please sign up at the link below.
