

Understanding Your Student's Spring 2026 Maine Through Year Assessment Score Report

Maine Scale Score

The colored, horizontal bars on your student's report show your student's Maine scale score. This score measures your student's performance on this assessment based on the important skills in reading and math for their grade level based on the Common Core State Standards.

The Grade 3 reading assessment measures skills such as:

- Answering questions about characters, settings, and events in stories.
- Identifying the lesson in folktales and fables from different cultures.
- Finding the main idea and key details of informational texts.
- Using text features like headings and keywords to find information quickly.

The Grade 3 math assessment measures skills such as:

- Understanding strategies for multiplication and division within 100.
- Developing an understanding of fractions.
- Developing an understanding of rectangular arrays and area.
- Describing and analyzing two-dimensional shapes.

The Maine scale score is associated with an achievement level that describes how the student's performance aligns with state expectations. The achievement levels are Well Below State Expectations, Below State Expectations, At State Expectations, and Above State Expectations.

Achievement Level Explorer Tool

The [Achievement Level Explorer Tool](#) provides detailed information on the specific academic standards assessed at each grade level and how those standards are broken down into different skills at each achievement level.
