

Understanding Your Student's Spring 2026 Maine Through Year Assessment Score Report

Maine Scale Score

The colored, horizontal bars on your student's report show your student's Maine scale score. This score measures your student's performance on this assessment based on the important skills in reading and math for their grade level based on the Common Core State Standards.

The Grade 4 reading assessment measures skills such as:

- Summarizing the main points of stories, plays, poems, and informational text.
- Using details and examples from texts when explaining what the text says.
- Making inferences using evidence from the text.
- Identifying the message or lesson of a story, play, or poem using key details.
- Comparing and contrasting stories by different writers or from different cultures.

The Grade 4 math assessment measures skills such as:

- Multiplying and dividing multi-digit numbers.
- Understanding equal fractions.
- Adding and subtracting fractions with the same denominator.
- Multiplying fractions by whole numbers.
- Classifying shapes by their properties.

The Maine scale score is associated with an achievement level that describes how the student's performance aligns with state expectations. The achievement levels are Well Below State Expectations, Below State Expectations, At State Expectations, and Above State Expectations.

Achievement Level Explorer Tool

The [Achievement Level Explorer Tool](#) provides detailed information on the specific academic standards assessed at each grade level and how those standards are broken down into different skills at each achievement level.
